

Hybrid adapters

Description:

The OPTOKON hybrid adapters are a solution for hybrid applications where new SFF (Small Form Factors) need to be inserted into existing environments or need to mate with one another. The innovative space-saving design and high precision coupling systems ensure reliable mating with low insertion loss and high return loss characteristics.

The hybrid adapters are available in SC-LC and SC-MU standards.

Features:

- SC panel cutouts
- Plastic housing
- Flange for easy installation
- Hybrid types provided

Application:

- Telecom
- LAN, WAN
- CATV
- Sensor Systems
- Measuring Technique
- Utilities, Railways
