OMK-SR-UNI.2

Termination & Repair Tool Kit

Description:

OMK-SR-UNI Termination & Repair Tool Kit is designed for the termination and repair of cables with ruggedized connectors. The tool kit is delivered in an aluminum case suitable for military tactical applications. It includes all necessary tools and accessories required for the termination of fiber optic connectors used in harsh environments. All tools are securely placed in custom pre-formed plastic foam, which protects the tools during transport and allows for easy inventory checks.

The tool kit is designed for use in harsh environmental conditions. It is water-resistant, operates within a temperature range of -40 °C to +80 °C, and is resistant to UV radiation and magnetic emissions.

Specifications:

Type: OMK-SR-UNI.2

Termination & Repair Tool Kit

Dimensions: 400 x 300 x 340 mm

Weight: 9.2 kg Equipment:

- Weather stripping for water protection
- Coated holder with return spring
- Reinforced corners for stacking
- Special pre formed plastic foam
